

Professional, wind- and waterproof, breathable work jacket for extreme weather conditions

Durable and sturdy rip-stop fabric made of recycled polyester, wind- and waterproof (10,000 mm water column), breathable and permeable to water vapour (5,000 g/m²/24h), sealed seams

Stand-up collar

Detachable, width- and length-adjustable hood

Width-adjustment on hem

Inner sleeve bands

Extended back

Full-length concealed waterproof 2-way zip with storm flap and chin cup

Side pockets and breast pocket with waterproof zip, 1 zipped inner pocket, 1 inner pocket with hook-and-loop fastener

Reflective elements (without protective function / no PPE)

at the back and on the sleeves

Zip for decoration at the back

Zips: YKK

Fabric: Outer fabric: 100% polyester (recycled)
Lining: 100% polyester (recycled)

Country of origin: China

Customs tariff number 62113310

Recycled Polyester

PET bottles are recycled to create a new fashion. Plastic bottles are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production.

Breathable-Permeable to water vapour

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

Water column from 1.500 mm

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

Taped seams

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % water-proof.
