HEADWEAR

www.daiber.de

SIMPLY DAIBER.

Design, customize and order headwear directly – digital, transparent and starting from just one piece.

Daiber Headwear combines modern design with functional quality and versatile applications. From caps in a wide range of shapes and fits to beanies for sports, work and leisure, the collection offers durable materials, high wearing comfort and numerous sustainable options. Whether for promotion, corporate fashion or workwear – Daiber Headwear is the ideal foundation for a professional brand presence.

The key added value: simple and transparent customization. With the new online customization editor, Daiber sets new standards in service, efficiency and digitization.

Print and embroidery orders can be configured independently directly in the webshop. Prices based on individual designs and order quantities are calculated in real time, and orders can be placed immediately – without questions, without price lists and no waiting.

This means for you: full cost control, maximum transparency and reliable planning around the clock. Customization is possible starting from just one piece – even small quantities benefit from attractive conditions.

Daiber automatically selects the optimal decoration method based on the item, colour, design and material.

The result for you as a customer: valuable time saving, coordination effort is minimized, and you receive the best possible result and outstanding quality – all in just a few clicks. This is our commitment as a leading e-commerce platform.

Because Daiber is not just a product supplier, but a digital full-service partner – efficient, flexible and consistently customer-focused. High-quality headwear thus becomes a strong and individual brand statement.

Simply Daiber.

FUNCTIONS & FEATURES

UV Protection UPF 50+

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. Therefore, the UPF-indication on textiles corresponds to the sun protection factor of sun-screens. This is based on the self-protection time of the skin, which varies considerably depending on the individual skin type.

Tear off!-Label

Our Tear off!® Label enables us to easily change the neck label of T-shirts. We use a special transfer-technique for relabelling your T-shirts.

Caps for printing

Caps with this label are ideal for printing and embroidering. The construction of the caps leaves a lot of space so the cap is easy to decorate, with the logo presented to perfection.

THINSULATE™ Insulation

The light-weight thermal insulation affords optimum protection against cold despite its minimum thickness. It even keeps you warm in damp or wet conditions. Thinsulate™ INSULATION offers excellent comfort and allows optimum room to move. It is extremely breathable, durable and easy-care.

TOPCOOL®

TOPCOOL® polyester fibres perfectly absorb moisture due to their special surface and evacuate it quickly to the outside where it can evaporate.

COOLMAX®

Through the channels of the breathable COOLMAX®-fibre humidity is evacuated extremely fast to the outer layers of the fabric. Thus the body is kept dry. At the same time a natural body temperature regulation is supported.

SUSTAINABILITY

Organic Cotton and Recycled Polyester

For us, corporate responsibility also includes using resources responsibly. That is why we use organic cotton and recycled polyester from certified supply chains in selected collections.

We are convinced that it is only with courage that we can grow together and move towards the future – as we have been doing for more than 100 years.

Recycled polyester is transformed into new fashion

We use recycled polyester in selected products that is certified according to the Recycled Claim Standard (RCS) or the Global Recycled Standard (GRS). These certifications ensure that the recycled content is traceably verified throughout the supply chain and that the material specifications of the final product are reliable. The products in question are labelled accordingly.

Organic Cotton Collection - Clothes with inner values

The Organic Cotton collection offers modern clothing made of organic cotton, featuring clean designs and loving details. The focus is on conscious material use and a transparent raw material origin.

The organic cotton comes from controlled supply chains and is processed without genetically modified fibres.

OCS Standard

The Organic Content Standard (OCS) by Textile Exchange verifies the proportion of organic material in our textiles and ensures traceability throughout the supply chain. OCS therefore stands for transparency and reliable identification of the organic material content in the final product. The products in question are labelled accordingly.

DAIBER EDITOR

Our online designer makes designing corporate and team clothing particularly efficient.

Logos and graphics can be easily uploaded and placed directly onto T-shirts, caps or other products. The editor supports various decorating methods such as printing or embroidery and displays your design immediately in a realistic preview.

In addition, our AI generates near-perfect sample images that display your design as a high-quality simulation on the selected products. At the same time, the system automatically calculates the price based on the item, quantity and decoration. This allows you to quickly test different options and find the best solution.

Once you've finished designing, you can place your order directly online. This saves time and ensures that you will get exactly the result you're looking for.

Get started and create your style:
