Both in textile promotion and in corporate fashion wear JAMES & NICHOLSON and myrtle beach are meanwhile among the best-known and most popular brands. The product diversity of the two product lines is unparalleled and is expanded every year by around 100 fashionable novelties. In the fields of sports, leisure, business and work there is hardly any top or headgear which is not included in the diverse product line.

JAMES & NICHOLSON stands for functional sportswear for almost every sport, for trendy leisurewear and jackets as well as for classic business wear and sturdy workwear. For all everyday situations JAMES & NICHOLSON offers suitable clothing for ladies and men. Most basics are available in almost 40 colours as well as in outsizes up to 6XL.

Fashionable and functional headwear as well as trendy accessories, which can be combined very well with the JAMES & NICHOLSON collection, that is what myrtle beach stands for. The wide range of cap shapes and cap designs is unique and at the same time innovative, for a few of the products of myrtle beach are prize-winning. In recent years the Promotional Gift Award has been won several times by clever cap inventions which have definitely enriched the promotional market. The headwear brand is extended by trendy scarfs, gloves and the large spa collection, which offers terry products for sports and the catering trade in more than 20 colours.

The storage capacity of the brands is 20 million pieces, 98% of which are always available. Extremely short delivery times and a smooth handling of direct shipment are a great advantage JAMES & NICHOLSON and myrtle beach offer their customers. Service takes top priority - in day-to-day business the focus is always on the customer. That is why the quality of the product lines is the most important thing of the company philosophy - from inception to completion and beyond. JAMES & NICHOLSON and myrtle beach are manufactured with social and ecological responsibility. All the textiles are REACH-compliant and manufactured according to Oeko-Tex® Standard 100. Since 1999 social and environmental aspects have been integrated into the company code of conduct. They are submitted to strict controls.

This year too, the new collection radiates a zest for life: always up to the minute in business and therefore trend-, quality- and price-conscious! With JAMES & NICHOLSON and myrtle beach several price levels from low budget to premium will guarantee excellent value for money for the customer.
RESPONSIBILITY

SOCIAL COMPLIANCE

As members of the BSCI/Business Social Compliance Initiative’ we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the employees’ right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage.

Another central component is the occupational safety regulations. That is how we guarantee that the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated. Several social compliance departments in the countries of production test all the factories thoroughly and make sure that these conditions are met.

OEKO-TEX® STANDARD 100

This standard guarantees that textile and non-textile product components pose no threat to health.

ADHERENCE TO THE REACH - REGULATIONS

We assure you that when manufacturing our myrtle beach products and JAMES & NICHOLSON textiles we meet the obligations of the REACH-regulations.

OCS STANDARD

When manufacturing garments of myrtle beach and JAMES & NICHOLSON, the Organic Content Standard is a standard for verifying and tracking the exact content of organically grown materials in a final product. Among other things, the superordinate ‘Content Claim Standard’ defines with OCS the traceability of merchandise as well as the transparency within the production chain.

PROTECTION OF THE ENVIRONMENT

All the products of myrtle beach and JAMES & NICHOLSON are produced in an environmentally friendly way.

QUALITY STANDARD

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.
Our goal is for both our products and our corporate values to be geared toward sustainability. We therefore want to take responsibility for the emissions produced as a result of printing our catalogue, as well as give something back to nature. That’s why we’re working with ClimatePartner and are producing a climate-neutral catalogue. Thanks to our cooperation with ClimatePartner, we were able to offset 271.6 tons of CO2 when printing this year’s catalogue. As part of this, we are supporting a stable alpine forest containing our native trees.

**STABLE ALPINE FORESTS**

A stable alpine forest provides protection against storms. The Bergwaldprojekt e.V. association protects native forests with the help of volunteers and skilled workers. As ecosystems, forests perform a variety of functions and are natural resources that form the basis for life. In Oberallgäu, volunteers have been supporting the natural protective function of the forest since 1991, after it was severely damaged by storms Vivian and Wiebke. Native species such as silver fir and sycamore have been planted to promote group-like forest structures and to thereby create a stable mixed alpine forest. The forest is also a natural filter and improves water quality by purifying rainwater as it trickles off the trees. The forest floor acts like a sponge and stores large quantities of rainwater, as well as reducing soil erosion. Forests also protect against avalanches as they prevent snowdrifts from forming. Coniferous forests in particular are able to retain a large part of the snow in the tree canopy.

**CLIMATE PROTECTION THROUGH REGIONAL PROJECTS**

Regional projects protect natural habitats such as native forests and alpine areas, as well as contribute toward green agriculture. These projects are important for enabling adaptation to climate change. Projects in Germany, Austria and Switzerland generally do not produce certified emission reductions. That’s why ClimatePartner combines regional projects with international climate protection projects. By doing so, this enables both climate neutrality and regional engagement.
ORGANIC COTTON COLLECTION - CLOTHES WITH INNER VALUES

Fair, transparent, harmless: The Organic Cotton collection includes a wide range of sustainably produced organic cotton clothing for every fair fashion lover. The Organic Cotton collection by JAMES & NICHOLSON and myrtle beach impresses with a high quality combined with modern cuts and tasteful details.

The naturalness is not only visible but also perceptible. Knowing that the components of the garment are made of sustainably grown cotton and that no genetically modified fibres are used conveys a completely new attitude towards life.

OCS STANDARD

When manufacturing garments of myrtle beach and JAMES & NICHOLSON, the Organic Content Standard is a standard for verifying and tracking the exact content of organically grown materials in a final product. Among other things, the superordinate ‘Content Claim Standard’ defines with OCS the traceability of merchandise as well as the transparency within the production chain.
RECYCLED POLYESTER

PET BOTTLES ARE RECYCLED TO CREATE A NEW FASHION.

Plastic bottles collected in the sea are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production. Thus for producing the workwear cap MB6234 about 3 half-litre bottles are recycled and for the new sport T-shirt JN519 even 25.

for example: plastic bottles

- crushing, cleaning, melting

- yarn

- fabric

- product

APPROVED

by LABTECH ID123987
NEW: COMING TO GRIPS WITH THE SUN THANKS TO WORKWEAR WITH CERTIFIED UV-PROTECTION

98% SHIELDING OF UV-RADIATION

UPF 50+

SUN PROTECTION AT WORK

WORKWEAR WITH CERTIFIED UV-PROTECTION

THE MORE UPF, THE BETTER

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. Therefore, the UPF-indication on textiles corresponds to the sun protection factor of sunscreens. This is based on the self-protection time of the skin, which varies considerably depending on the individual skin type.
PEOPLE WORKING OUTDOORS
Many people work outdoors all day or part of the day. They have a much higher risk of contracting skin cancer than people working indoors. The same goes for leisure activities outdoors. The sun is your constant companion and supplies the vital vitamin D. But a lot of sun also means: headgear, sunscreen and UV-protective clothing.

UVA/UVB-RAYS
UV-radiation is especially strong in the months of April to September; from 11 a.m. to 4 p.m.

THE DANGERS OF UV-RADIATION
UV-radiation also exists when the sun is not shining. It also penetrates the clouds. UV-radiation exists independent of outdoor temperature. It penetrates loose tissue. It is reflected by surfaces such as metal, water, concrete.

CORRECTLY ASSESSING THE RISK
UV-CLOTHING PROVIDES BETTER PROTECTION THAN SUNSCREEN
The best protection against harmful UV-radiation is provided by certified UV-protective clothing. It shields off radiation, does not have to be applied once again like sunscreen and therefore lasts all day. For the parts of the body uncovered by clothes sunscreen with a high sun protection factor and a headgear should be used.

AUSTRALIAN/NEW ZEALAND STANDARD AS/NZS 4399:2017
The best-known and worldwide most common standard is the Australian-New Zealand standard. For checking the UV-protective factor according to AS/NZS 4399:2017, the UV-protection is established on a new and dry textile. For this purpose, the solar spectrum of Melbourne, Australia, is reproduced. Clothing marked with the Australian/New Zealand standard provides protection against UVA- and UVB-radiation of sunlight. A product marked with UPF 50+ according to this standard blocks more than 98% of the harmful UV-rays. The textiles protect the parts of the body covered by them.

TESTED TEXTILE UV-PROTECTION
The LABTECH Prüfungsgesellschaft mbH is officially accredited according to DIN EN ISO/IEC 17025 2005 and based on this standard, they test as an independent laboratory the UV-protective factor of our textiles.
**FUNCTIONS**

**CAPS FOR PRINTING**
Caps with this label are ideal for printing and embroidering. The construction of the caps leaves a lot of space so the cap is easy to decorate, with the logo presented to perfection.

**BREATHABILITY / PERMEABILITY TO VAPOUR**
Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

**WATER COLUMN**
The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

**RECYCLED POLYESTER**
PET bottles are recycled to create a new fashion. Plastic bottles collected in the sea are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production. Thus for producing the workwear cap MB6234 about 3 half-litre bottles are recycled and for the new sport T-shirt J6519 even 25.

**EASY CARE**
This special finish makes shirts and blouses especially easy to iron. To preserve this function the textiles should not be overdried in the tumbler and you should avoid using an overheated iron.

**TAPED SEAMS**
To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100% water-proof.

**SOFTSHELL**
Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

**BIONIC-FINISH®ECO**
BIONIC-FINISH®ECO was developed, following the example set by nature, ‘learning from nature’. The textile is protected against water and dirt by a very thin crystalline structure. BIONIC-FINISH®ECO protects man and nature.

**THINSULATE™ INSULATION**
The light-weight thermal insulation affords optimum protection against cold despite its minimum thickness. It even keeps you warm in damp or wet conditions. Thinsulate™ INSULATION offers excellent comfort and allows optimum room to move. It is extremely breathable, durable and easy-care.

**COOLMAX®**
Fast drying, breathable and ideal for all activities.

**COOLDRY®**
CoolDry® is designed for performance. Derived from Nature. Based on ingredients, DuPont™ Sorona®. Designed for self-sufficient and nature-friendly performance benefits to today’s fashion. Fabrics that use Sorona® are very soft, very strong and dry quickly. Sorona® renewably sourced fibre delivers superior and transforms raw sugar into a fibre that can dyeing methods and additional textile finishing ensure permanence of movement and wrinkle recovery. Fabrics and garments are quickly, are breathable and ideal for all activities.

**NON IRON**
Avoid using an overheated iron. If necessary, seams can be ironed at a low temperature.

**COOLBLACK®**
Wearing these garments does not sweat so easily, protection against heating up through sun rays.

**SOFT SHELL**
Breathable Wind and water resistant Shell Membrane Lining

**BIONIC-FINISH®**
The special finish makes shirts and blouses especially easy to iron. To preserve this function the textiles should not be overdried in the tumbler and you should avoid using an overheated iron.

**Cordura® Shell**
Dyeing methods and additional textile finishing ensure shape retention and to retain its shape. Fabrics and garments dry quickly, are breathable and ideal for all activities.

**Lycra® Sport**
Lycra® Sport fabrics are specifically engineered for sporting activities which require a combination of light weight, breathability, muscle support and freedom of movement.

**Teflon®**
To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100% water-proof.

**COLOURED MEMBRANE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.

**COLOURED LAMINATE**
The material is water-proof, wind-proof and breathable at the same time.
**& FEATURES**

**Thinsulate™ INSULATION**  
offers excellent comfort and stays warm in damp or wet conditions.

**Water-proof.**  
and stitches can get taped. Taped seams are 100% waterproof.  

**Breathability**  
Functional textiles must have the ability to transport moisture quickly, are breathable and ideal for all activities.

**Lycra®**  
allows the fabric to stretch significantly and retain its shape. Fabrics and garments containing lycra offer exceptional fit, comfort, freedom of movement and wrinkle recovery.

**Lycra® SPORT**  
Sport fabrics are specifically engineered for sporting activities which require a combination of light weight, breathability, muscle support and freedom of movement.

**RECYCLED POLYESTER**  
Plastic bottles collected in the sea are crushed, melted, and turned into a new fashion.  

**BIONIC-FINISH® ECO**  
This process preserves the breathability and functionality of the material, while also being environmentally friendly.

**TOPCOOL®**  
TOPCOOL® polyester fibres perfectly absorb moisture due to their special surface and evaporate it quickly to the outside where it can evaporate. The skin stays comfortably dry and a constant temperature level of the body is maintained.

**COOLMAX®**  
Through the channels of the breathable COOLMAX® fibre, humidity and moisture are evacuated extremely fast to the outer layers of the fabric. Thus, the body is kept dry. At the same time a natural temperature control of the body is supported.

**NON IRON**  
This special finish makes shirts and blouses iron-free. All you have to do is wash them, dry them and put them on. To preserve this function, these textiles should not be overdried in the tumbler and you should avoid using an overheated iron. If necessary, seams can be ironed at a low temperature.

**COOLDRY®**  
Due to the COOLDRY® finish moisture is transported to the outside and creates a comfortable feeling. The textiles dry quickly, are breathable and ideal for all activities.

**Cordura®**  
is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

**LYCRA®**  
allows the fabric to stretch significantly and retain its shape. Fabrics and garments containing lycra offer exceptional fit, comfort, freedom of movement and wrinkle recovery.

**COLDBLACK®**  
Textiles with a coldblack®-finish afford optimum protection against heating up through sun rays. They stay cooler. The effect of this is that the person wearing these garments does not sweat so easily, feels better and is even more efficient. coldblack® is a registered trademark of Schoeller Technologies AG, Switzerland (patent pending).
ORGANIC COTTON
ORGANIC WITH ATTITUDE
Bio-Baumwolle
**8008 Men’s Basic-T**

Classic T-shirt for men | 100% combed ring-spun organic cotton | Single jersey | Round neckline | Sleeve-cuffs with elasthane

Outer fabric (150 g/m²): 100% cotton
THERMO-SUBLIMATION FOR GREAT PRINTS!

Sublimation prints are an amazing way to create bright, long lasting colours with photorealistic qualities. Sublimation ink, when heated, turns into a gas that penetrates and permanently dyes polyester fabric, creating a clean, professional look with a soft touch.

Start-up costs are minimal as processing is performed by an ink jet printer using heat transfer paper. The resulting print is in mirror image and is transferred onto the garment by using a heat press at a specified temperature and pressure. This is a low cost operation suitable for one-offs or production series.

SUBLIMATION-T

Round-neck T-shirt suitable for sublimation print | Fine single-jersey, suitable for sublimation print | Twin-needle stitching on shoulders, neckline and armlines | Necktape Outer fabric (150 g/m²): 100% polyester

Sublimation prints are an amazing way to create bright, long lasting colours with photo realistic qualities. Sublimation ink, when heated, turns into a gas that penetrates and permanently dyes polyester fabric, creating a clean, professional look with a soft touch. Start-up costs are minimal as processing is performed by an ink jet printer using heat transfer paper. The resulting print is in mirror image and is transferred onto the garment by using a heat press at a specified temperature and pressure. This is a low cost operation suitable for one-offs or production series.

PET BOTTLES ARE RECYCLED TO CREATE A NEW FASHION

Plastic bottles collected in the sea are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production. Thus for producing the workwear cap MB6234 about 3 half-litre bottles are recycled and for the new sport T-shirt JN519 even 25.

for example: plastic bottles

made from -10- PET bottles

plastic bottles

crushing, cleaning, melting

**WASHING (TUB)**

The numbers in the tub indicate the maximum washing temperatures which must not be exceeded. The bar below the tub requires a more (mechanical) gentle treatment (e.g. programme for delicate fabrics). It designates washing programmes which are suitable for easy-care and delicate garments. Textiles made of cotton or mixed fibres should be pulled into shape when still wet. We recommend that textiles with prints or embroideries should only be washed on the reverse at a maximum of 40 degrees in order not to impair the quality of the print or embroidery.

- **Normal washing**
- **Delicate washing**
- **Special washing**
- **Hand washing**

**IRONING (IRON)**

The dots indicate the temperature scale of the iron. Textiles with prints or embroideries should only be ironed on the reverse.

- Iron at high temperature (max. 200 degrees)
- Iron at medium temperature (max. 150 degrees)
- Iron at low temperature (max. 110 degrees)
- Do not iron

**TUMBLE DRYING (TUMBLE-DRIER)**

The dots indicate the drying grades of the tumble-drier. Textiles with transfer prints must not be tumble-dried.

- Tumble dry at normal temperature
- Tumble dry at low temperature
- Do not tumble dry

**BLEACHING (TRIANGLE)**

This symbol shows the textile cleaner whether the garment may be bleached or not.

- Chlorine bleaching possible
- Only oxygen bleaching
- Do not bleach
