temperature : 150 – 170°C
preheating is not necessary

time: 8-12 sec.

pressure: 0.5-0.8 kp/cm²
3-4 bar (strong pressure)

CARE

washable up to 60°C

iron inside out

do not chlorinate

do not tumble-dry

do not dry-clean

CERTIFICATE

tested for harmful substances

Oeko-Tex Standard 100 Class 1

suitable for babies and toddlers

SHELF LIFE

approx. 2 years if kept airtight
in a dark environment

TRANSFER PRINTING

Waterbased

HIGH OPACITY

The Waterbased transfer offers **high elasticity** and **perfect opacity** with a **soft touch** and a **velvety surface**. Due to its **high degree of opacity**, it is ideal for **light and dark backgrounds**. It can be applied gently on the textile- on cotton and cotton mix. It is **durable** and **hard-wearing**.

Waterbased transfers are suitable **for all backgrounds** (light, coloured or dark, cotton or cotton mix). They are available in **black and white (special colours on request for a minimum quantity of 500 pcs.)**. **On request they can be used for polyester.**

CHARACTERISTICS

soft touch

high degree of elasticity and opacity

satin finish

suitable for babies and toddlers
